# MARINE POLLUTION BULLETIN

The International Journal for Marine Environmentalists,  
Scientists, Engineers, Administrators, Politicians and Lawyers.

The *Marine Pollution Bulletin* sets out to cover all aspects of the fight for life of the lakes, estuaries, seas and oceans. It includes news, comment, reviews and research reports, not only on the threat of noxious substances to marine life but also on the management and productivity of the marine environment in general. It publishes accounts of new and proposed research programmes as well as the results of those in progress.

Published monthly

## Editor

Prof. R. B. Clark, *Dept. of Zoology,  
University, Newcastle upon Tyne  
NE1 7RU, UK*

## News Editors

Dr P. Kingston, *Institute of Offshore  
Engineering, Heriot-Watt University,  
Riccarton, Edinburgh EH14 4AS, UK*  
(Assistant News Editor: Alexandra Duff)

Ms E. Stamman, *SEAMOCEAN,  
7609 Potrero Avenue,  
El Cerrito, CA 94530, USA*

## Baseline Editor

Dr E. I. Hamilton, *Institute for Marine  
Environmental Research, Prospect Place,  
Plymouth PL1 3DH, UK*

## Editorial Board

Dr W. R. P. Bourne *University of Aberdeen, UK*  
Prof. G. Cognetti *Istituto di Zoologia e Anatomia Comparata, Pisa, Italy*  
Dr D. Ellis *Department of Biology, University of Victoria, B.C., Canada*  
Prof. J. S. Gray *University of Oslo, Norway*  
Dr E. I. Hamilton *Institute of Marine Environmental Research, Plymouth, UK*  
Dr L. S. Hammond *Victorian Institute of Marine Sciences, Victoria, Australia*  
Dr Sidney Holt *Città della Pieve, Italy*  
Prof. A. McIntyre *Aberdeen, UK*  
Prof. Brian Morton *University of Hong Kong*  
Dr D. J. H. Phillips *Aquatic Habitat Institute, California, USA*  
Prof. Shinsuke Tanabe *Ehime University, Japan*  
Dr M. Waldichuk *West Vancouver Laboratory, West Vancouver, B.C., Canada*  
Dr D. A. Wright *Chesapeake Biological Laboratory, Maryland, USA*

## Advertising Offices UK

Advertising Manager, Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, UK  
Telephone Oxford (0865) 64881

## USA

Advertising Manager, Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, USA

## Annual Subscription Rate 1990

For libraries, individuals, government departments, or industrial establishments DM300.00; two-year rate (1990-91) DM570.00 (including postage and insurance). Prices are subject to change without notice. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, USA, and for the remainder of the world to Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, UK.

## Copyright © 1990 Pergamon Press plc.

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organizations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

## Photocopying information for users in the U.S.A.

The Item-fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying, beyond that permitted by Section 107 or 108 of the United States Copyright Law, is paid. The appropriate remittance of \$3.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 27 Congress Street, Salem, MA 01970. The Item-fee Code for this publication is: 0025-326X/90 \$3.00 + 0.00

## Permission for other use

The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.

## Instructions to Authors

- 1 Forms of contributions:** Research Reports (maximum 2500 words of text), shorter research Notes, Baseline records of contamination levels, Viewpoint articles, and Letters to the Editor are considered for publication. Submit manuscripts to the Editor, Prof. R. B. Clark (address above).
- 2 Style of contribution:** Manuscripts to be in the English language with (a) Main title (not more than 2 lines printed; sub titles should be avoided), (b) author's name, affiliation, and present postal address, (c) informative summary (not more than 150 words), (d) text, (e) acknowledgements, (f) references, (g) tables, (h) captions to figures. Submit 2 copies of the manuscript on good quality white paper (or high quality xerographic copies); the manuscript should be typed with double spacing throughout and with wide margins (4 cm). All tables and figures should be numbered with Arabic numerals. In the text the word 'Figure' should be abbreviated to 'Fig.' except at the beginning of a sentence. Avoid hyphenation at end of a line. Weights and measures must be expressed in metric units according to the *Système International* (non-metric equivalents, if appropriate, can be included in parentheses). All non-standard abbreviations or symbols should be defined when first mentioned.
- 3 Tables:** A clear copy of tables of data should be submitted on a separate sheet and not included in the text. Very extensive tables of data are of questionable value and authors should consider more succinct ways of presenting essential information. The same data should not be presented in both tabular and graphical form.
- 4 Figures:** All photographs, schemes, and drawings should be referred to as figures, numbered consecutively, and not included in the typescript. Maximum size 22 x 28 cm. On the back or margin, the author should write his name, the figure number, and the orientation of the figure. One set of figures should be of a quality suitable for reproduction (original drawings or high quality photographic reproduction; xerographic copies are not acceptable); photographs should be sharp with clear contrasts. Scales, if needed, should be shown on the drawing or photograph.
- 5 References:** References should be listed at the end of the text in strict alphabetical order of authorship and year of publication. Give all authors' names, full article title, and inclusive pages. Journal titles should conform with abbreviations in the *World List*. Citations in the text should be by author and date, given in parentheses: 'et al.' is used for papers with three or more authors. Examples:  
Journal: Swedmark, M., Granmo, A. & Kallberg, J. (1973). Effects of oil dispersants and oil emulsives on marine animals. *Water Res.* 7, 1649-1692.  
Book: Bryan G. W. (1976). Heavy metal contamination in the sea. In *Marine Pollution* (R. Johnston, ed), pp. 185-302. Academic Press, London.
- 6 Proofs:** Unless otherwise specified, galley proofs will be sent to the first-named author for correction. Excessive alterations should be avoided. Corrected proofs should be returned to the Editor, Prof. R. B. Clark (address above).
- 7 Reprints:** Reprints can be purchased at a reasonable cost, and an order form will be enclosed with the galley proofs.
- 8 Content:** Although all contributions are subject to peer review, responsibility for the contents of papers rests upon the authors and not upon the editor or the publisher. It is therefore important that the contents of the manuscript are carefully considered by authors. The author must agree not to publish the same manuscript in any other journal without obtaining the consent of the editor of this journal.

# MARINE POLLUTION BULLETIN

The International Journal for Marine Environmentalists,  
Scientists, Engineers, Administrators, Politicians and Lawyers.

## 1. Viewpoints

*Marine Pollution Bulletin* has been publishing commissioned 'Viewpoint' articles since 1977 by senior and authoritative experts in marine pollution. The Editorials and Viewpoints are important and influential features of the journal which express opinions about current events. Recent viewpoints include:

Use of bio-indicators in monitoring conservative contaminants: programme design imperatives—D. J. H. Phillips & D. A. Segar  
Marine pollution mismanagement: towards a precautionary concept—V. Dethlefsen  
Science—a time of change?—E. I. Hamilton  
The IOC programme on marine pollution—Gunnar Kullenberg  
Mercury in the Mediterranean basin—R. Ferrara & B. Maserti  
World-wide death of corals—natural cycling events or man-made pollution—B. E. Brown  
Ecological and human health concerns in ocean disposal of wastes—Judith Capuzzo  
The modern prevalence of beach erosion—E. C. F. Bird  
Marine treatment and marine protection—The need for harmony—N. C. D. Craig & J. R. Lawrence

## 2. Special Issues

*Marine Pollution Bulletin* also publishes special topic issues from time to time, which are also available separately to non-subscribers, direct from the Publisher. Special issues published to date are:

- Vol. 20 No. 7 (1989) *Pollution in the Far East*  
Edited by David J. H. Phillips
- Vol. 19 No. 11B (1988) *Incineration at Sea and Artificial Reefs*  
Edited by M. Waldichuk
- Vol. 19 No. 9 (1988) *Chesapeake & San Francisco Bays*  
Edited by D. A. Wright & D. J. H. Phillips
- Vol. 18 No. 6B (1987) *Plastics in the Sea*  
Edited by Douglas A. Wolfe
- Vol. 17 No. 4 (1986) *Submarine Sewer Outfalls*  
by B. Quetin & M. de Rouville
- Vol. 16 No. 4 (1985) *Cellular Toxicology and Marine Pollution*  
Edited by B. L. Bayne
- Vol. 15 No. 2 (1984) *Bristol Channel and Severn Estuary*  
Edited by R. S. Glover
- Vol. 12 No. 6 (1981) *State of the Baltic*  
Edited by G. Kullenberg
- Vol. 10 No. 10 (1979) *Pollution in the Mediterranean*  
Edited by R. B. Clark
- Vol. 9 No. 11 (1978) *The Amoco Cadiz Oil Spill*  
Edited by M. F. Spooner

## **OCEAN ENGINEERING**

An International Journal of Research and Development

Editors-in-Chief: **MICHAEL E McCORMICK** and **RAMESWAR BHATTACHARYYA**,  
Department of Naval Systems Engineering, US Naval Academy, Annapolis, MD 21402, USA

*Ocean Engineering* provides a medium for the publication of original research and development work in this field. In recognition of the fact that many research and development workers are now entering the area, occasional review articles by leading authorities are published. Areas covered in *Ocean Engineering* include:

Design and Building of Structures (including ships)  
Submarine Soil Mechanics  
Coastal Engineering Properties and Fabrication of Materials  
Stress Analysis and Hydrodynamic Properties of Shells  
Ocean Energy  
Underwater Instrumentation  
Power and Propulsion Systems  
Aquacultural Engineering  
Underwater Acoustics Marine Resources.

A Selection of Papers

**D MYRHAUG & O H SLAATTELID** (Norway), Combined wave and current boundary layer model for fixed rough seabeds.

**T N DELMER & T C STEPHENS** (USA), Numerical simulation of an oscillating towed weight.

**V SUNDAR** (India) & **K SUBBIAH** (Singapore), Application of double bounded probability density function for analysis of ocean waves.

**D E CALKINS, R P KAISER & H S KIM** (USA), Analytical and physical modeling of a free-fall oceanographic vehicle.

**R S LANGLEY** (UK), Random dynamic analysis of towed pipelines.

**K SZILDER & E P LOZOWSKI** (Canada), Optimizing the growth thermodynamics of artificial floating ice platforms.
